Version october 2014

/// *Mia, the sewing workshop*

The workshop was created in 2009 by a French expatriate. It targets **women from deprived areas**, enabling them to make a living and obtain a qualification while receiving a sewing course.

The *Mia* workshop currently welcomes **5 women from Bucharest's Sector 5**, directed by a professional tailor. These women work 5 half-days at the Casa and receive a salary. They either have children who are participating in the Casa Valentina program or have the strong desire to become a professional tailor, in order to get integrated in social life after their two-year training.

The workshop is located in the **Casa Valentina** which supports **100 children every day in a schooling program**. The tailors benefit from secure facilities and a friendly environment, suitable for self-fulfilment.

*Mia* believes in the essential role the women have to play in the midst of their family, and consequently gives them the means to achieve their dignity and to exist in the social and economic life of their country.

*Mia*'s key objective

is to develop the association in such a way that it can help the women of the program towards finding employment, and will soon open its doors to new potential trainees.

## /// The *Mia* products

Since its creation, *Mia* has developed many ranges of products :

- > clothes for children (2-12 years)
- > costumes

**2400**

items have been created or repaired in the workshop in 2013 !

If you are looking for a special gift, need a favourite dress altering or have some sewing work that needs doing urgently :

*Mia* is your best option !

## The *Mia* flagship : the Bucharest fabric

In 2012, a complete range of bags and kits have been created with an original fabric showing a former map of the romanian capital. This collection was a great success. In 2013, a new collection was launched with new models and colours, including iPad covers. Once more in 2014, the Bucharest fabric has been used in the beach collection with larger bags and kits, with lively colours and impermeable material.

A genuine success story !

## /// They showed their support and trust in *Mia*

By providing the association with equipment and funds:
